

Does your agency carry worker's compensation?

- Yes! The purpose of a worker's compensation system is to provide financial and medical benefits to the victims of 'work-related' injuries regardless of fault. The cost of this insurance is borne by the employer.

Is your agency responsible for liability insurance?

- Yes, we provide liability insurance while our aide is in your home.

How do I handle the long-term care insurance process?

- Let us help you get started and we can help you submit all future claims.

What can a caregiver do?

- Help promote socialization in the community
- Light housekeeping & homemaking tasks: laundry, changing bed linens, food shopping, meal preparation
- Provide transport & accompany clients to doctor's appointments & other errands
- Assist with tasks clients can no longer manage on their own
- Assist with transfers, bathing, dressing, & grooming
- Remind client to take medications
- Help to avoid higher level of care

How will a caregiver help my family and me?

- Alleviate caregiver stress
- Provide peace of mind
- Give you confidence that your loved one is safe
- Maintain the best possible quality of life

What is the difference between an hourly versus a live-in caregiver?

Hourly

- Usually a minimum of 3 hrs per visit
- Pay by the hour
- Provide individualized care based on client needs

Live-in

- Around-the-clock care
- Pay by the day
- Constant in home companionship
- Provide individualized care based on client needs
- Always less expensive than hourly on a 24 hour basis

How do you select & screen your aides for employment?

- Complete background checks
- Driving records search
- Professional assessments of client needs to provide a good personality fit
- Social security verification
- Check references
- Comprehensive interviews
- Sexual offender registry search

What makes ECA better than other aide agencies?

- We are hands on, people oriented.
- We look at each case individually so we can give quality, personal care to each client.
- We help to support families through our care management services and adult day care services.

Why would I choose a geriatric team approach to my parent's care?

Our Elder Care Consulting Team, lead by a professional geriatric care manager, offers assistance with planning for future health care needs by providing a comprehensive needs assessment and finding professional and reputable geriatric care services, ongoing advocacy, care coordination and counseling/family mediations. The ECC Geriatric Care Management Team is available to:

- Assist in implementing the agreed upon plan of care.
- Help clients maintain health and independence
- Provide on-going education to aides, clients and their families
- Available to support, counsel and advocate for families through many difficult types of situations such as hospitalizations, advocating and supporting their decisions
- While not required, we believe that the partnership between our professional Care Managers and our Home Support Staff provides the most comprehensive, individualized level of care.
